KINGSPAN

Cold Store & Insulated Wall & Roof Panels

Fire safe Quadcore insulation technology across the architectural wall, trapezoidal roof and wall ranges and cold stores.

BOXCOLD

Walk-In Cold Rooms

A Leading European Company in Modular Prefabricated Cold Rooms Production at High Innovative, Technological, and Food Safe Standards.

POLIDOOR

Cold Air Storage Doors

We highlight our product with the use of our own panels to make our doors and assure that all our electronic components are also produced in-house.

DAIKIN

Cooling System Solution

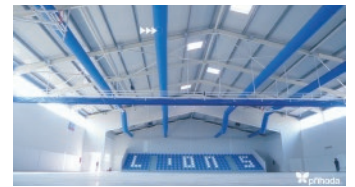

Refrigeration solution for all applications. Unique range with all Components built in along with Reliable & High efficiency ammonia Industrial Special Package systems.

ICEBERG

Refrigeration Equipments

Innovation lines of water tank coolers, Swimming pool heat pumps and tropicalized condensing units equipped with all types of hermetic, semi-hermetic, and screw compressors.

PRIHODA

Fabric Ducts

Fabric Ducting & Diffusers acting both as air supply (air transfer) as well as air distribution / diffusion into the occupied zone.

DANFOSS

Pressure Independent Balancing Control Valves

Wide range of pressure and temperature regulating valves for Commercial and Industrial Refrigeration Application.

GENEBRE

Fluid Control Valves & Industrial Automation

GENEBRE covers the entire range of fluid control valves for all types of applications such as chilled water, infrastructure (irrigation, drainage) & water supply (plumbing) system.

HALCOR

Copper Tubes

HALCOR copper tubes for heating, water supply, cooling, natural gas transport, air-conditioning and industrial uses. Produced by Halcor Group, Greece, Bulgaria & Romania.

FRIGA-BOHN

Evaporators HeatCraft

Evaporators & refrigeration equipment for low & medium temperature application. Power packed with any centralized refrigeration system for industrial & commercial use.

SODECA

Ventilation Fans

Sodeca (Spain) specializes in all Industrial & Commercial Ventilation Solutions, Normal fans for residential buildings, Extractors for evacuating fumes in car parks & tunnel ventilation systems.

THERMOBREAK

Thermal Insulation

“All in one” flexible thermal insulation made from physically crosslinked closed cell polyolefin foam for duct, pipe, tank, under slab, raised floor, wall and roof insulation.

PROMAT

Fire Protection Board & Penetration Seals

Steel protection, smoke barrier, fire resistant ceilings, ventilation & smoke extraction ductwork plenums, & fire compartment walls.

HYGIBREAK

Glasbord Composite Panels with Thermobreak Backing

HYGIBREAK is a combination of Crane Glasbord® FRP panel coated with Surfaseal® film backed with Thermobreak® physically crosslinked insulation assembled to make a unique cladding and self adhesive direct fix hygienic panel.

CRANE COMPOSITES

Glasbord® with Surfaseal® FRP Hygienic Panels

Ideal hygienic wall cladding for areas where both sanitation and durability are required. Made in the USA.

PRODUCTS

DINAK

Stainless Steel Chimneys

Chimneys and metallic flues for industrial and building sectors. A wide product range that includes a wide range of flue, chimney and exhaust solution.

PYROTEK

Noise Control

Flexible mass vinyl noise barrier with superior acoustic transmission loss. Used in all applications to reduce noise spread in walls and ceiling.

CROSSWAVE

Innovative Underground Water Storage System

Using Polypropylene material with chemical and water resistance that helps create space to store water while offering an effective usage of its top surface.

MERCOR

Natural Smoke Ventilators, Smoke & Fire Curtains, Skylights

Smoke vents exhaust smoke, combustion gases and heat energy from enclosed spaces (production floors storage spaces, public facilities, etc.)

BSK

Ecology Unit

Industrial & Commercial Ecology Unit (Wide Range of ecology unit solutions in Kitchens, hospitals, factories & others).

DANTHERM

Air Handling Units

Dehumidifiers with capacities from 12 to 290 liters/day for: Domestic Pools & Water Areas.

STOW

Storage Solutions

As a leader in the warehouse equipment field, our aim is to develop static and automated storage solutions, for palletized goods, medium and small items.

LOADING SYSTEMS

Dock Equipment & Industrial Doors

Complete program of products and services for loading and unloading: Dock Leveller, Dock Shelter, Sectional Doors and accessories.

STILL

Material Handling Equipment

Founded in 1920 in Germany, Still distributes and supplies forklift trucks, platform trucks, tractors, and warehouse handling equipment for intralogistics.

SCOPE OF WORK
